To Power your WeatherGuide™

Your WeatherGuide™ is powered by 1 AAA battery (not included). Remove the battery compartment cover located on the back of the unit. Install 1 AAA battery. Replace the battery compartment cover.

How to Display your WeatherGuide™

Place the unit indoors in a well-ventilated location away from direct sunlight.

Table top – use the Table Stand on the back of the unit.

Wall – use the keyhole on the back of the unit, located between the buttons and the battery compartment.

How to read your WeatherGuide™

Indoor Humidity Readings

Indoor humidity displays on the LCD screen.

Low Battery

If the readings on the LCD screen become dim or irregular, replace the battery.

Precautions

1. The receiver is intended for indoor use only. It is not sealed against moisture and could be damaged if used outdoors.
2. Do not immerse the unit in water. If you spill liquid on it, dry immediately with a soft, lint-free cloth.
3. Do not clean the unit with abrasive or corrosive materials. This may scratch plastic parts and corrode electronic circuits.
4. Do not subject unit to excessive force, shock, dust, temperature or humidity. This may result in malfunction, shorter electronic life span, damaged battery or distorted parts.
5. Do not tamper with the unit's internal components. Doing so will invalidate the warranty on this product and may cause damage. The unit contains no user-serviceable parts.
6. Do not dispose of batteries in fire. Batteries may explode or leak. Remove the battery if the unit will not be used for a long period of time.
7. Always read the instruction manual before operating this product.
8. Due to continuous product improvements, the displays shown in this manual may differ from the actual display.
